Subject: Re: Lake Conestee Site Inspection and Site Decision

Jason, Robert, Alayna, & Friends,

Thanks for forwarding the Site Inspection / Site Decision documents.

It took a couple of tries, but I was able to download two documents.

I trust these reports respond to my FOIA request to EPA-R4, submitted 05 October.

I will digest these documents right away.

I'm not sure if additional documents may be forthcoming in response to my request. *(Please advise if there is more forthcoming).*

After I've reviewed these docs, it is likely I will request a conference call or a meeting at your office to discuss the PA/SI effort, the report, and where this takes us next.

Most importantly, I continue to advise several key stakeholders, especially with respect to the status of the dam. All parties are keenly interested in assuring the MNR strategy (*containment/minimal disturbance/natural capping/protection of public patrons*) continues to provide effective protection of public safety, the environment, and downstream public interests.

I thank you and your Site Assessment team for your work on this project over the last three years.

Very best regards,

Dave

Dave Hargett, Ph.D.

Dave,

Attached are links to access the Site Inspection for Lake Conestee and the USEPA's Decision Form. Any inquiries or comments should be addressed to the USEPA's Project Manager.

Regards,

Jason
